

W. L. L. L.

Our Society appears to be a little more united. The evils in part (which have arisen from various causes) are removed. I begin to have hope concerning this matter that it may be in the end for the good of all concerned.

As our members being persons who are advancing towards the meridian of life or beyond it I have felt particularly anxious for the spiritual welfare of young people and have opened a meeting every Monday evening for them when I ~~endeavour~~ endeavour to impress on their minds the first principles of the doctrine of Christ.

[We have also opened two schools one at Portuguese Town which consists of between 20-30 scholars principally Adults who appear very wishfull to learn. - 20 these people we regularly preach to two or three appear to have some conviction which has improved their conduct. (God grant it may end in their salvation); these we have put under the care of an experienced Christian. They in general appear very wishfull to be taught and to have their children brought up in the fear of God, as they term it - in white man fashions.]
