You will see this arrives  
have received by the Nancy mine to you of August  
20<sup>th</sup> and have no doubt read with concern its contents  
For my part I have been sick almost ever since  
If I have been able to work one week the doctor  
has most generally laid me up two or three.

<sup>13</sup> My last touch has been a month, during which I have had to contend with the Pustular-Ague and fever, which quite spent up my little remaining strength and made me almost as helpless.

a Child. I suppose there is now to enter your  
Committee Room. It would be no small matter  
of difficulty to you to find out who I was.  
Praise God I am now gaining a little strength.  
Last Sabbath was my first day of labour, and here  
the Lord was better to me than my fears; for I had  
anticipated that my weakness would allow me to preach  
but once, but the Lord assisted me also in the evening  
and when I thought the next day would find me  
lying up: I was thankful to find no material dif-  
ference between Saturday and Monday

but still I am so weak I cannot visit one of our Country Places & I have no Horse since our Horse died I thought I would try to do without a Horse and did make the attempt one week but was laid up; and the friends think it a mad attempt to do this work without one, but now there are none to be had.

I am aware my dear Father notwithstanding those trying dispensations of Providence I feel happy in my work, and am satisfied I am in my providential place.

He Lord makes me happy by the continual  
manifestations of his favour, and many of these  
dear People make me happy by their unblamable  
life and conversation. I may be to God unworthy and  
am of such an honour yet he is pleased to make  
me useful. Here in Town I have joye times  
since had to cut off some who lived with me  
and who I believe have a hundred times as much

<sup>2</sup> But since then
