

Rev. Dr. Coke
14 City Road
London

Dear
Sir

Rev. and Dear Sir,

As we expect you are anxious to hear of the labours and welfare of your Missionaries we shall embrace every opportunity for that purpose, & will do to make known to you our wants, which we shall freely do.

Our labours are now entirely restricted to the town, having no time to get among the surrounding tribes, though this is what we came out for and what we are very desirous to do. The Day-school takes up half of our time, one of us being there every day; and the other half is spent in preparing sermons, some of which we write for ourselves, but chiefly we take those of others, and attending to the affairs of the Society. The order of our meetings is as follows: On the Sunday morning at 8 o'clock, a preaching & again at 9 o'clock at 2 in the afternoon is a prayer meeting, and at 6 in the evening another preaching. On Monday at 7 at night a prayer meeting, at the same time on Tuesday & Friday are preachings. On the Thursday evening at 7 the general Land meeting, on Saturday night we meet the Leaders. These and prayer meetings every morning at 5 are all held in the Chapel. On the Wednesday night, which before was vacant, we now hold a prayer meeting at our own house. The above are in general well attended & would be very profitable had we better singing. The old blind & lame man, Moses Wilkinson, is yet alive but attends very seldom, and when he speaks, he outstretches his voice at times, to terror and frightfulness. Mr Brown is mostly sick & seldom able to do us service. Mr Henry Warden is a strong & healthy man but he is seldom willing to labour. There are also two of the young Men, Laps Leaders, Prince Slob & Joseph Jewit, who frequently read us sermons in our service. The Sunday forenoon & night service we take exclusively to ourselves, besides filling up the places of the others in their absence. The numbers in Society are same as Raynolds account, only a wanderer or two seems to be returning. A many of the people who had left the Colony seem to be about to return, amongst whom are several of our members. The young Man, a Native, you spoke of, is yet among us, but he is not able to write or read. He is a very quiet, simple, & we believe honesthearted Christian. The other young
