Rev and Dear Sir

235

The bearer is Mr. Thos. Kint whom the Committee sent here with the late Mr. George Warren as school master. I have reason to believe that while the school was continued he did his duty to the satisfaction of the public and his own credit.

Since my arrival he has been useful in speaking to the people in the villages and walked agreeable to the precepts of the Gospel, and according to report he has pursued the same course ever since he came to Africa.

I am very solitary and often in heavy sleep. But I believe in answer to absent praying friends, God is pleased to give me some consolation in Christ Jesus. I am rather feverish today after the labours of the Sabbath, but hope it will go off. My Constitution I believe is good and I think now I am likely to bear the difficulty of this station till you can send me help which I trust will be as early as possible. I think it necessary that I should be moved as soon as convenient, as the being a stationary preacher is not what I can persevere much longer to the good of the
