Answer

Rev Dr Coke
Methodist Chapel
Mount Pleasant
Liverpool

Rev and Dear Sir

June 16th 1813
Surra Limer 80

In the last we submitted to you, dated April 25, we wrote several things which we feared you it serious, knowing that it would lessen the expenses of the Mission. We shall rehearse the several articles in this list together should not reach you. One barrel of Flour, one barrel of Pork & one of Beans, three or four Hams, one or half hundred weight of Sugar, two firkins of Butter, one barrel of Molasses, two cheeses, some of some of Spruce, mustard, pepper, nutmegs, such of these necessaries as you think proper. A few table & tea spoons, Cups & saucers, Table cloths & towels, and some Plate & Linen for the school. A Box of Soap, this was not mentioned before, some Glass tumblers. These we requested you to send half yearly. We are at present in want of them. We also told you what necessity there was that we should have more wine & small liquor for the support of our constitution, and that it would be much easier for the mission, to have the Ale and Porter from England, on account of their great prices here, ale being 25 per Bar. Porter 20 per Bar, both frequently more. Wine we get here as cheap as in England. The books we wrote you for are, the completion of Mr May's works beginning with the ninth Vol, the Monthly Magazine beginning with the number for May 1812, the Methodist Magazine beginning with April 1812 the third volume of your History of the West Indies, and Vignier's Key to his Director's Guide, and if you please a few tickets. I first wished for the continuance of Dr Clark's Bible, beginning with the fourth part. These articles should all be well made up. The last articles that came were not, the consequence was they were damaged, having given you a statement of the things we in the other, sent to you to send, and were then promised to send you an account of the day's quarter, as soon as possible, we shall send it and it will stand in our book of disbursements.
