

we have many experimental believers in Christ.
The good work proceed and believers are added.
It would do your heart good to see them what God
has done for them. A few weeks ago at Soldiers Town
while their meeting House was being rebuilt we held
Beneches in a hut; I wished to exhort them to get on with
the meeting House and observed. That a man or a woman
who plastered a meeting House or carried stones to build
it; did as honourable a work for God, as an officer did
for his King; when he sat upon an horse and
gave the the word of command to the soldiers "right
about face" they smiled and said "true". In three or
four days after they ^{had} thatched & plastered & ~~with~~
whitewashed it, put the legs in the forms, the door on its
hinges & the desk in its proper place.]

I am coming home by Capt Doane who gives me
a passage and shall (if God will) have the
gratification of seeing my friends and if the
Committee think proper I must immediately proceed
to West Indies or if they judge convenient to let me
stop a little in England it would gratify me & perhaps
be advantageous.

I have no intention of giving you a more
repetition of what I have said in my letter to the
Committee and must conclude by subscribing
