

birds and with whom
live with the Missionaries
their people together
I think it is a good
is surely the best
ing, but this we can
will no doubt feel
top is small when
dissipating society who
plain of the Clouds
and I think that
they had lost 2400 \$ and
I am hoping to say
myself at the Church
who may be as-
sume to observe
reference to their
but will by no means
colleague suffered
few days before he was
of Medicine or other
but he is certain he
coast, & so will any
is a bad thing in
self, so that nothing
by their Persons coming
implements a broken
are. Persons of a
or this Climate
at least here, is then
ly suitable.

Hot and Cold will
the extreme damp
been used to the
linen. If they could
it better than or
to the clothing some
the better, some good
is tight as possible
the top under the
y tight sides. I have
I know not what
one but thin in the
pair of shoes for
the pair, nothing is
It would be very
the Linen ones in
then wet, which makes
doing. Some wooden
any here

And a good Scotch Cloak added to a top Coat, would
be of very great service, a top coat is wanted, not
coming out of sickness, and a Scotch Cloak when
going into the Rain, which is lighter colored than
than the former. It is now the 23^d I am much better
the extremely weak I could preach but once yesterday
and then I almost fainted in the middle of the sermon
I am now confined to one Room & that one leaks in
5 or 6 places, in such a state is our House. It will cost
a considerable sum of money to put it in tolerable repair
when the day's commence. This Station is I know
expensive, & I really fear that with but 2 Missionaries
this Station will all things considered be equally as great
if not greater than if you should see proper now
to lay out a little money in building, necessary, such
as a House at Congo town and a School House here in
Tomb for Boys & Girls and supply these with a little
at first. then would there be an opportunity and
fair one, to see if good might not be done
but now as soon as we begin a season of labor
that being to great one or the other falls, which is
just the case now, and then we have to do what
I fear on the present plan cannot but be
care, always beginning, stopping soon to receive
you the agreeable news of the appointment of the
first Missionaries for this Station I remain
yours very respectfully & affectionately

P. S. By this goes a Bill in favour of
Capt Rowe for \$150. which, ~~that~~ you will
please remit
